Eight Fun Things to Try Outdoors

- Feeling lucky? Find a ladybug. How far can it travel in five minutes?
- Go on a nature scavenger hunt. Check out www.outdoorosity.org for a list of things to find.
- Take a leaf rubbing. Cover an interesting leaf with a piece of paper and rub the side of a pencil over the paper to create a custom piece of art.
- Cover a pine cone in unsalted peanut butter and make a bird feeder to hang outside your window.
- Learn to recognize at least one bird by its call. Free resources can be found at www.audubon.org.
- Find a comfortable place to sit outside. Go there every day and see how many animals you can spot in ten minutes.
- Build your own streams and dams by rearranging the dirt at the edge of a mud puddle.
- Lead your friends in a game of flashlight tag.
